

Name: Farwa Hussain pari

Roll no: FA24-BCS-031

Section: (A)

Assignment 1 — Your Personal CV Page

Difficulty: Foundational · Covers: Lectures 3–6 (HTML & HTML5, Semantic HTML and Forms, CSS Fundamentals, the CSS Box Model) · Folder: assignment-1/

Task: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

A header with your name, a short professional tagline, and a photo (a placeholder image is fine).

An “About Me” section.

An “Education” section listing your academic history in a semantic list or table.

A “Skills” section.

A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.

Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.

Styling entirely in a separate `styles.css` file (external stylesheet, not inline `style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

Deliverables in assignment-1/: `index.html`, `styles.css`, any images, and your completion PDF.

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file Index.html.html (checked with vnu 26.10.2)

Checker Input

Show ☐ source ☐ outline ☐ image report ☐ errors & warnings only Options...

Check by file upload ▼ Choose File No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Check

Document checking completed. No errors or warnings to show.

Used the HTML parser.

Total execution time 4 milliseconds.
